STEPS TO A SUCCESSFUL REGISTRATION
(begin one week prior to your registration time)

BEFORE YOU REGISTER FOR CLASSES:

1. **Review and Resolve any holds on your record.** A student account or financial aid hold may prevent you from registering, adding, dropping, or withdrawing from classes. You may check for holds using the “Holds” link on the Biographical Data page listed in the CX – Student Profile portal.

   Note: You must **complete your 2006-2007 FAFSA** prior to registration. Students who have not yet completed this step will have a hold placed on their record. If you are only just now filing your FAFSA, it is highly recommended you provide documentation to Financial Aid demonstrating you have filed, otherwise there may be a delay between when you file and when the government sends your results to CBU. Valid documentation includes: the Confirmation Page for online submissions, a Certificate of Mailing, or your Student Aid Report (SAR).

2. **Review your Degree Guide** to determine what outstanding requirements you need to complete. All students are strongly encouraged to attend a Major Advising Session. Additional Information and tools will be available on the Enrollment Advising web page. If you have further questions please schedule and advising appointment.

   Note: If you are completing degree requirements listed under the 2001-2002 catalog or older, please refer to your degree evaluation.

3. **Review the course schedule** to determine the classes you need and/or want to take. Juniors and Seniors should focus first on courses that meet your major requirements. Sophomores and Freshman should focus on choosing a few major courses and a few general education courses. Course Schedules can be viewed at [www.calbaptist.edu/schedules](http://www.calbaptist.edu/schedules), or you can complete course searches on InsideCBU using the Course Search link. You are responsible for knowing the course dates and add/drop/withdraw dates for each course.

4. **Review your selected courses** for Section Requirements, Pre-Requisites, Co-Requisites and other factors that may affect your eligibility to enroll in the course.

5. **Obtain course authorization.** If you plan to register for a course marked signature required, have petitioned for a conflicting course, or have not met the pre-requisites, co-requisite, or concurrent requisite you must obtain a course authorization from the college, school, or department prior to registration.

6. **Know when YOUR personal registration time begins.** General Registration dates are listed below for your reference.

   - **Seniors:** February 27 (Mon) - March 3 (Fri)
   - **Juniors:** March 6 (Mon) - March 10 (Fri)
   - **Sophomores:** March 13 (Mon) - March 17 (Fri)
   - **Freshmen:** March 27 (Mon) - April 7 (Fri)
   - **Graduates:** Determined by Program
