California Baptist University  
*Undergraduate Curriculum Committee*  
May 5, 2004

**Present:** Jonathan Parker, Gayne Anacker, Daniel Skubik, Bruce Stokes, Mary Crist, Dan Wilson, Darrell Passwater, James Lu, David Pearson, John Pate, Erica McLaughlin, Alan Fossett, Shawnn Koning, Margie Arnett, Phil Martinez

- Jonathan Parker opened the meeting in prayer.

- John Pate presented a revised English/Communications 3XX syllabus for Advanced Studies in Theater History. The modifications were printed in bold and provided the requisite depth for this upper division course. A motion was seconded and unanimously passed to receive and approve the syllabus.

- Dan Wilson presented twelve syllabi related to adjustments in the Christian Studies major. These syllabi are related to the following adjustments:
  
  - Adjustments of the requirements to 12 units for both the Christian Ministry and Theology/Philosophy concentrations.
  - Add a Theology/Church History concentration.
  - Change the title of CST 360, “History of the Christian Church” to “Church History.”
  - Add three new Special Topics courses to help define which courses fit different concentrations within the major. The new courses are Special Topics in New Testament, Special Topics in Theology, and Special Topics in Church History.
  - Add two advanced Greek courses (Grk 4XY and 4XZ for Advanced Greek I and II) to provide Senior-level courses.
  - Change the course description of CST 301, The Christian Life, and add a new course. The new course would be CST 2XX, Spiritual Foundations for Ministry. The change and addition will serve to provide for two different curricular needs, one in the Evening College format and the other in the Applied Theology program.

  A motion to recommend approval of these changes to Executive Council was seconded and passed unanimously.

- Dr. Wilson presented a set of adjustments for the Bachelor of Applied Theology program. These adjustments included the addition of seven new courses. Four of these new courses (Pastoral Leadership, Pastoral Ministry, Advanced Biblical Preaching, and Church Planting) were actually part of the original proposal for the Applied Theology Program, but never got added to the catalog. Two of the courses (Christian Theology I and II) will replace CST 360, Christian Doctrine. The last of these changes is the Spiritual Foundations for Ministry course mentioned in #3, above. A modification to the proposal was suggested: That the Ministry Integration Practicum (CST 391) be renumbered to allow identity of the requirement in each semester. This will require the course description and objectives to be expanded to be distinct for each course. A motion to recommend approval of this proposal with the amendment to Executive Council was seconded and unanimously approved.

- The meeting was adjourned at 2:35 p.m.
